Clifton House

A purpose built service in the heart of the community for adults with severe and enduring mental health needs

DeepdeneCare

Focusing on longer term rehabilitative support, Clifton House specialises in caring for individuals requiring ongoing assistance with essential living skills who may be at significant risk of self neglect or exploitation.

Prema Court- Clifton House

01.

Clifton House provides community based residential services offering support and rehabilitation for adults experiencing a wide range of mental health issues. Centrally located in Old Trafford, Manchester, it is ideally situated to take advantage of excellent local facilities and transport links as well as all of the attractions of a major city.

Deepdene Care, an established national mental healthcare provider, has operated Clifton House units since their acquisition in 2008. With services operating throughout the UK, the group has developed strong and stable compliance, governance and central support frameworks which Clifton House benefits from.

Clifton House is a specialist service offering solutions for adults with a history of behaviours which often result in placement difficulties. Service users at Clifton House often exhibit complex mental health needs including severe and enduring mental illnesses, challenging behaviour, and drug or alcohol dependency. We are well equipped to accommodate those who exhibit behaviours such as self-harm, personality disorders, or dual diagnosis.

Individual care

A purpose built service meeting the needs of up to 32 service users, Clifton House is spread over three floors offering spacious and modern accommodation and facilities including individual lounges, residents kitchens and communal dining and recreational areas. Service users at Clifton House are supported by a highly skilled multi-disciplinary team, consisting of an experienced and qualified home manager leading a team of key workers, care support workers and activities staff who provide 24 hour support.

Clifton House provides a particularly high level of support to its service users, who are encouraged to focus on their recovery through the provision of individually tailored care plans that are outcome based. These address the practical, social and psychological needs of each person, enabling them to live as independently as possible.

Service users are encouraged to focus on their recovery by working with us to develop individualised pathways of care that encourage positive risk taking and focus on individuals' strengths and aspirations, enabling them to take an active part in their care and rehabilitation program.

Positive outcomes

Our service users are individuals in their own right with their own specific and often complex needs, and personalisation is a key element of our service. Our goal is to offer the range of support needed to enable the individual to work towards achieving the most positive outcome for them, whether a return to independent living and employment, or to a supported environment where they can access all the services the community has to offer.

Clifton House offers access to nurse led services at Brook House and more rehabilitative focused residential care at Norton Street, only a short distance away.

Referrals

At Deepdene Care we welcome referrals from all areas of mental health care and are committed to making this process as unintrusive and stress free as possible.

The referral process is reactive and easy to use, with a direct line to our dedicated referral team.

Following a referral a senior member of our multi-disciplinary team will arrange to carry out a full assessment within 24 hours at a time and venue that best suits the individual's need.

After this assessment our multi-disciplinary team will review the case and if suitable a placement offer and full breakdown of costs will be sent to the referring agency within seven working days.

Once the placement is agreed we will work closely with the individual and their care team to ensure a smooth and successful transition.
